MOHANOKOR Microfinance Institution Plc

Job Announcement

MOHANOKOR Microfinance Institution Plc is a financial institution in the provision of inclusive financial services to poor people within operation areas in 25 provinces and cities in order to contribute to the social economic development in Cambodia. To respond with rapidly growth of institution, we are looking for the qualified applicants for the vacant position as **Manager of IT Security Unit - 01 Post** based in **Head Office**.

Job Responsibilities:

- Oversee technology security as well as potential operational risks for the three professional divisions (Network Support, Core Banking Management and Software Development).
- Review departmental policies, procedures and guidelines to ensure feasibility and effectiveness of implementation.
- Monitor and control the performance of the branch as well as the relevant departments on the principles, procedures and guidelines of the Department of Information Technology.
- Monitor and monitor compliance with proclamations, directives or decisions of governments, national banks and other guardians related to technology.
- Check the log of the operating system, security system or the main management system of the institution, including monitoring the log of Super user, administrator user or power user, Remote log control and unsuccessful attempt.
- Check the backup file and perform a test restore to ensure that the file can be restored 100%.
- Collaborate with the three specialized departments to facilitate the audit of the Internal / external audit, NBC or Tax.
- Oversee subordinates to conduct Vulnerability Assessment and Penetration test according to set principles.
- Establish procedures or guidelines in the field of expertise to facilitate implementation as well as prevent any risks / errors of performance.
- Participate in training both new staff and refresh training to staff involved in safety management, technology and policies and procedures of the department.
- Other tasks required by the competent management.

Job Requirement

- Bachelor's degree in Technical, Information Technology or other related skills.
- At least 3 years of experience in security management or technology auditing.
- Highly creative, in-depth analysis.
- Technical knowledge such as Flexcube Core Banking System (preferred) and information technology security management.
- Have good communication in all relevant circles and increase trust.
- Honest, healthy, willing to work, patient, plan, direction and vision.
- Good knowledge of English (writing, listening and reading).
